Are You a Breast Cancer Survivor OR Would You Like To Help Breast Cancer Survivors?

An investigation into working and cognitive function after primary treatment for cancer

In order to participate, you must be:

1) Female breast cancer survivors between 1 and 10 years since primary treatment (surgery, chemotherapy, and/or radiation) whose breast cancer has not spread
OR Female who has never been diagnosed with cancer

2) Currently working full-time

3) Between the ages of 18 and 65

3) Without a history of dementia, brain injury, epilepsy, drug or alcohol abuse or adult ADHD (for breast cancer survivors, no ADHD diagnosis prior to cancer diagnosis)

4) Have access to the internet (any connection speed other than dial-up)

We will ask you to take a short online questionnaire and test of memory, attention and organization that will require 60 to 75 minutes of your time**.** The study is 100% online and can be taken from any computer that does not use dial-up connection.

To see if you are eligible for our study, please go to:
