Rear total toe: +1/16 for <200whp. ~+1/8" for greater than 200whp.				
Current Setup Notes				

1				

[1] Unknown mileage, etc

First fluid change in 2021 there were a few metal chunks (pieces of teeth). Runs fine, nothing in more recent oil changes.

[2] Setup: 2.5deg aoa. No gurney installed.

Options:

1/2" Gurney Flap

[3] Setup: 4.5" height

3"-4" height (from the top) optimal. Rounded bottom leading edge.
